

Kampai

Alt-electronic / live + DJ

Dark dance textures with a live edge and a clean after-hours identity.

Discovery

Kampai is the kind of act people discover on a lineup and immediately need help placing. The page has to orient that person in under a minute, give them one strong listen path, and make the booking next step obvious.

Proof

Festival-ready set design: Built for lineup pages and live booking decks, not just streaming discovery. Sharp sonic identity: Immediate late-night electronic lane with enough shape to hold a page. Editorial fit: Can be framed quickly for culture, nightlife, and performance contexts.
